Tournament Rules

The rules for this competition have been created to ensure the safety of each angler, spectators and the fish, and to give an equal chance for any angler to win. All competing anglers must read, understand and comply with the rules, etiquette and penalties described herein.

Anglers violating rules described herein will be assessed with verbal warning, yellow card or red card, depending on the classification of the rule. Verbal warnings will be assessed for lesser violations. A second verbal warning for the same offense will result in a yellow card. Anglers assessed one yellow card will be put on warning. Anglers accruing two yellow cards will be immediately expelled from the competition and entry fees forfeit. Anglers assessed a red card will be immediately expelled from the competition and entry fees forfeit.

1. Liability

A.) Anglers and Runners are responsible for their own property, safety and liability for any damage or injury to others. The Organizer of this competition, the Sponsors, and the hosting Township waive any and all liability for any personal loss or injury, howsoever caused. This is an "enter-at-your-own-risk" event. Please remember that there are likely to be spectators and children present at all times.

2. Fishing License

A.) Competing anglers must hold a valid fishing license for the State or Province in which the event is held. You will be asked to present this license at the tournament registration event.

3. Pre-fishing

A.) Pre-fishing and viewing pegs via boat and/or use of fish finding devices is not permitted by registered anglers and Runners at the event body of water for two weeks prior to competition. [RED CARD]

4. Peg Draw and Peg Etiquette

A.) All competitors must have registered and paid all entry fees by the start of the peg draw. [RED CARD]

B.) There will be a peg draw for each tournament. Tournament Director will draw team names at random to determine order of peg choosing. Teams may randomly select two of all available peg locations, choose one of the two selected pegs, and return the non-selected peg to the draw. If a team is not present within one minute of being called upon to choose, they will receive last pick of the peg draw.

C.) Anglers must fish and place all of their fishing equipment within the posted boundaries of their peg. [VERBAL WARNING]

D.) The Weigh Marshals will attempt to prevent media and spectators from getting in your way. Please be courteous to spectators and be prepared to answer questions and allow photographs from media. [VERBAL WARNING]

E.) Anglers must be courteous to Weigh marshals and tournament officials at all times. Excessive rude or disorderly conduct will not be tolerated. [VERBAL WARNING]

F.) If an angler must leave their assigned peg for 10 minutes or longer and there are not at least two registered anglers present in his or her absence, his or her lines must be reeled in before leaving. [YELLOW CARD]

G.) If a team wishes to withdraw during the competition, they must record their leaving time with the Weigh Marshal and remove all equipment from their pegged area. Anglers are encouraged to be present at the end of the Awards Ceremony after competition closes to be eligible for any door prizes and awards.

H.) Keep pegs free of trash and debris upon exiting the assigned peg. If you are unable to remove the trash and debris from your peg, you must inform the attending weigh marshal or tournament director. [YELLOW CARD]

I.) Open fires are not permitted. Use of propane grills and heating devices are permitted. [VERBAL WARNING]

J.) Anglers may drive their vehicles to their assigned peg to unload equipment, but vehicles must be returned to and remain in designated parking areas as indicated, until the end of competition. Runners or anglers that have pulled in their lines may use their vehicles 6:00 AM – 9:00 PM. [VERBAL WARNING]

K.) Vehicles may not leave tournament grounds after 9:00 PM and no visitors may remain and may not arrive again until 7:00 AM the following morning. [YELLOW CARD]

5. Tournament Start and Finish

A.) No breaking of the water is allowed before the start of the competition, except to plumb the depth, position a marker float, wet nets, unhooking mats and carp-sacks. Anglers are allowed to draw a small amount of water, in a suitable bucket or pail, to wet and prepare groundbait (chum). [YELLOW CARD]

B.) The competition will start promptly at the advertised time. The start of competition will be announced over the PA Loudspeaker System and/or signaled by a long blast on a horn. The fishing period will last its designated amount of hours, with competition close announced by PA and/or signaled by one long blast on a horn.

C.) All fishing lines must be removed promptly at the end of the competition. Any angler currently playing a fish upon the competition end must call out to a Weigh marshal and/or fellow competitor and signal "Fish On." The angler will have a maximum of 15 minutes to play the fish in and net it; timekeeping will be the responsibility of the nearest Weigh Marshal. The Weigh Marshal's decision will be final.

6. Bait

A.) Baits allowed include food-quality baits such as bread, corn, vegetables, carp-safe boiled baits, pellet and paste baits, etc. The rule here is that the angler must be prepared to eat the bait, to prove it is safe for the fish. [VERBAL WARNING]

B.) Care must be taken to properly prepare cooked baits for safe consumption by fish. Certain baits, such as field corn, when raw or undercooked, can be damaging to the digestive system of the fish. Anglers found to be fishing with raw or undercooked baits must cease use of the bait until it has been fully prepared and approved by a tournament official. [VERBAL WARNING]

C.) In addition, anglers can use natural baits; worms, nightcrawlers, maggots, mealworms, waxworms, crickets, etc. Lures (plugs, jigs, etc.) may not be used. No live or dead whole or cut fish or fish pieces can be used as bait. Artificial corn and pop ups are permitted. Tournament officials have the right to inspect all baits and disallow any bait they deem illegal, offensive or dangerous. [VERBAL WARNING]

D.) Groundbaiting (chumming) is allowed. Spods, PVA bags, nets & string, catapults (fishing slingshots), throwing spoons, and feeders of all types are acceptable. Please bait intelligently, as too much groundbait, chum and/or free offerings will definitely affect your chances of catching and may ruin your neighbor's sport, too. [VERBAL WARNING]

7. Targeting and Playing Fish

A.) This is a catch-and-release tournament; no fish will be weighed unless it was caught fairly, has been handled safely, and can be released alive.

B.) Boats, bait-boats, fishing finders, sonar, and other like fish-finding equipment are not permitted. [YELLOW CARD]

C.) An angler may enter the water to net a fish, release a fish, place a fish in a holding sack, or to free a fish caught in a snag, weed or otherwise in distress or possible danger. In the event of low foliage impeding the angler's ability to cast, the angler may enter the water far enough to allow for a cast, but to no deeper than the angler's waist. Swimming is prohibited. Anglers enter the water at their own risk. [VERBAL WARNING]

D.) Carp are hard-fighting fish and there may be a need for an angler to leave their peg location momentarily to play a fish that is running parallel to the bank. A catch will be valid if the fish is landed within the angler's assigned peg area or within the adjacent buffer zone. A buffer zone is defined as the space that lies between end boundary lines of neighboring pegs. A fish that is tangled with a neighboring team's line(s) or that is landed within the assigned area of a neighboring peg will be disqualified.

E.) Tournament Directors reserve the right to issue a YELLOW CARD to anglers repeatedly playing fish into the neighboring peg area.

F.) In the event of a disagreement between competing neighbors, a Weigh Marshal and/or Tournament Director must be called to settle the dispute if one cannot be reached between the neighbors. The tournament official's decision on the matter will be final.

G.) Should an angler require assistance landing a fish while multiple fish are hooked at the same time, a Weigh Marshal may help safely recover the fish. However, fish landed by a third party not registered to the team will be disqualified.

8. Landing Nets, Unhooking Mats and Carp Sacks

A.) Anglers must use a soft, knotless mesh or rubber mesh landing net of the appropriate size. [YELLOW CARD]

B.) Anglers are required to use a well-padded mat when unhooking fish that have been netted. [YELLOW CARD]

C.) Anglers must retain catches waiting to be scored in carp-friendly sacks that will not damage the fish. [YELLOW CARD]

D.) While retaining fish, carp sacks must be fully submerged in water and must not be overpopulated with fish. [YELLOW CARD]

E.) In an emergency and without a carp-sack, the angler is allowed to retain a catch momentarily by placing the landing net and fish back in the water.

9. Equipment Use

A.) Only two rods per angler may be casted with bait at any time, with one single hook per rod. Visual and audible remote bite indicators are permitted.

B.) Hooks can be no larger than a size 1/0. Recommended hook patterns are barbless and micro-barbed (e.g. a standard Carp Hook), or have the barb squeezed down with pliers. Hooks larger than a size 1/0, multiple hooks, double or treble hooks and hooks with an oversized barb are not allowed. [YELLOW CARD]

C.) Weigh Marshals have the right to inspect an angler's hooks, and can disallow fish caught on any other type of hook. Weigh Marshal decisions in all such cases will be final. Marshals and tournament directors reserve the right to disallow 1/0 hooks in the event that said hooks become problematic in the damage they cause to captured fish. [VERBAL WARNING]

D.) Anglers can use additional rods for spodding or controlling a marker float. No fishhooks can be attached to any part of the line on this rod. The angler can have additional rods pre-rigged at the peg, but they can only have a maximum of two baits in the water at any time. [YELLOW CARD]

E.) Standard, Carp-safe rigs are allowed. All rigs should include either a Safety Clip or be capable of sliding over knots in the case of an Inline, Helicopter, or Method Feeder rig. Fly Fishing, Float Fishing or Pole Fishing Rigs must include a lower breaking strain leader/hooklength/tippet, to avoid a Carp breaking off the whole rig. [YELLOW CARD]

10. Valid Fish

A.) Only Common Carp and Mirror Carp can be weighed and counted for any awards or prizes.

B.) Other fish (including Game Fish) do not count and may not be retained. [YELLOW CARD]

C.) Any fish that are dead, snagged, foul-hooked (hook is in a part of the fishes body more than 1 inch from the mouth) will be disqualified. [YELLOW CARD]

11. Weighing System

A.) Weigh Marshals will record exact weight (pounds and ounces), type (Common or Mirror), and time caught on official score sheets. The angler will then be asked to sign official score sheets confirming that the information has been recorded correctly.

B.) Anglers may also record exact weight, type (Common or Mirror), and time caught on their own score sheet and may request that the Weigh Marshal check both records and sign the angler's score sheet. It is each angler's ultimate responsibility for ensuring that his/her fish is recorded accurately. Tournament officials will not accept any complaints on weight after the angler has signed the official score sheet.

C.) At the end of each marshaling shift, Weigh Marshals will report each angler's catch to tournament directors. There will be a minimum of two 6-hour (or longer) weigh marshal shifts during each day of competition. Anglers must retain fish in carp sacks overnight until the following morning marshal shift.

D.) Wild Carp Companies uses State-certified scales; anglers may ask to view certification stickers to verify compliance. Scales of models and brands will be identical for all Weigh Marshals.

12. Confirm Your Scores

A.) At the end of the competition, anglers may compare their score sheets with the Tournament Director. In the event of any discrepancies, notify the Tournament Director immediately. Tournament Directors and Weigh Marshals will examine the angler's score sheet, the official score sheet and final tournament results, advise the angler of the discrepancy found, and update the leader board and any other documentation as appropriate. In all cases, the Tournament Director's decision shall be final and binding.

B.) In the event of a tie for the Big 6 awards & prizes, the team with the largest single fish shall be judged the winner. In the event of a tie for the weight of a single fish award or prize, the winner will be judged by the second biggest single fish, and so on.

13. Cancellation

A.) If the event needs to be cancelled prior to the start due to extreme weather conditions (e.g. Tornado warning), all pre-registered and paid anglers will be refunded their fees, less their percentage share of the cost of any administration charges (e.g. DNR Tournament Permit fees, City park fees, etc.) that cannot be recovered by the organizers.

B.) In the case of a forced outage (severe storm) during competition, the tournament may be postponed, which will be alerted by PA system and/or the sound of a horn. At such a time, anglers are urged to take cover and cease fishing until alerted otherwise by a tournament official.

C.) In case of an interruption caused by a storm before 30 hours of the competition have been completed, the event will be resumed, but the interruption will be added to the originally scheduled hours. If the tournament cannot be finished, but at least 30 hours of the competition have been completed, it will be considered valid and prizes will be awarded based on standings at the time of interruption.

14. Penalties/Disqualification

A.) Tournament officials reserve the right to penalize and/or disqualify any competitor for violating rules and guidelines expressed in writing and verbally prior to and throughout the start of competition. In the event that a competitor is found in violation, they will be reprimanded accordingly for the violation.

B.) Penalized and disqualified Angler(s) will be required to sign a Tournament Rules Violation Form (see attached). A witness may sign the Tournament Rules Violation Form should Angler(s) refuse to do so.

C.) Any team disqualified from the tournament will be removed from the tournament leader board and post-event press coverage.

D.) Tournament officials reserve the right to impose sanctions on anglers and/or teams if they commit crimes or exhibit negative behavior not otherwise specified in this document.

E.) Any competitors who repeatedly violate tournament rules across events may be banned from future competitions.

F.) If during the contest situations arise that are not stipulated in the rules, decisions will be made by the Tournament Director and the competitors will be subject to such decisions.

15. Copyrighted Materials

A.) All images, descriptions and associated intellectual property are solely owned by Wild Carp Companies. These items cannot be used without expressed written consent from the owners.

16. Direct Marketing/Recruitment

A.) Companies are not permitted to direct market their goods and/or recruit anglers for promotional and/or sponsorship deals during the Ed French Open unless approved to do so. Companies that have a paid sponsorship with the tournament may direct market and/or recruit during the registration event, closing ceremony, and any pre-tournament social events sponsored by the Ed French Open.

B.) Official VERBAL WARNINGS will be issued to ALL teams sponsored in the tournament by any Company found to be direct marketing and/or recruiting during non-approved times.

Ed French Open
Tournament Rules Violation Form

In the event that a competitor is found in violation of tournament rules, they will be reprimanded accordingly for the violation (e.g. Verbal Warning, Yellow Card or Red Card, depending on the nature and severity of the violation).

Any competitors who repeatedly violate tournament rules across multiple events may be banned from future competitions.
